Blackburn's assured re-election to the U. S. Senate from Kentucky is another triumphant victory for free silver. Many powerful influences were brought to bear upon his candidacy in the hope of securing his defeat but he came out victorious. Another telling blow to the administration and the gold bug press!

The Governor of Texas has said unto the Sheriff of Dallas county that it will be right and proper to pump lead into Mr. Corbett and Mr. Fitzsimmons if they attempt their little fist-cuff there in October. Mr. Corbett and Mr. Fitzsimmons will hardly fight in the Lone Star State.

The cry is against the convention, and already the dissatisfaction of the masses is beginning to assail the primary. The impression that none but qualified electors should participate in elections is gradually gaining ground and the only way to secure this is to abolish the primary, where it can be done and decide contests that are limited to one party, by the general election.

"Well, dear, our coal is out." "All right, I will step to the telephone and order three or four tons sent down." "But our coal dealer has no telephone." "You must be wrong about that. Surely a man with his enterprise, public spirit and general good judgment must have a telephone." "No, I heard him say a few days ago that telephones were of very little service, that people had gotten out of the habit of using them, and he saw no reason for taking it." "Well, I regret the circumstance, but I must give my order to a man who has a telephone."
